

A normal distribution curve is plotted on a light gray grid. The curve is black and bell-shaped, centered at 0.13. The area under the curve to the right of 0.059 is shaded yellow. The text 'p-valor' is written in orange above the shaded area. The x-axis has labels '0.13 (valor nulo)' and '0.059'.

0.13 (valor nulo)
